Site is group of structures, at least one of which is tall + airy. Inside structures are several are - one area has long, light colored wooden floors, people in uniforms, pungent smells, which reminds one of a hospital type setting; other area seems to be a very large room w/ rows of large solid dark colored metallic objects which seem to be in "ready reserve" or storage or etc. Place conjures up strong impression of POMCUS military equipment stores in Europe.

There are other objects present that are ~~paper~~ tapered, cylindrical, rounded + curved; there is the feel of massive moving equipment + loud diesel engine sounds + smells.
